

PIT CREW/Band Trailer

If you have signed up to help with the Pit Crew -- THANK-YOU!

Details of working the Pit Crew.

****This will have lifting and pushing/pulling band equipment****

Please arrive as early as possible to help load the band trailer behind the High School by the band doors.

All pit crew does NOT have to be available to load/unload trailer at the school. Will need approximately 4-5 people.

+++++

Pit Crew for games, please arrive at the stadium home or away before game starts, the earlier the better. I will hand out Pit passes for all that will be working each game. These will need to be returned to me after each game. We will need approximately 16-20 people for pit crew for EACH game and competition.

After the trailer is unloaded we will then line up the equipment in order that it needs to be placed on the field.

Please arrive back at the trailer BEFORE half-time starts (approx) 6:00 minutes left in the 2nd quarter.

You will be assigned a specific piece of equipment that you will take on and then off the field. Placement will be centered in front of the drum major podium.

Then bring back to the trailer so that it can be loaded.

If you have any questions, please contact me.
